BUDDING IN TROUSERS

Small Price List

November 1, 1960

Although this list is for late fall, winter and spring shipment, our soil and climatic conditions permit us to dig and ship practically the year round so order for delivery when your conditions are right.

All plants are shipped with a good ball of soil so may be planted late in the spring if given a little shade and kept well watered. In the soil if they are planted the better growth they will make.

Indicate sizes desired by letters; May Day d, would mean a 14 in. plant with flower buds. May Day D, same size, with flower buds. The following each variety indicate the sizes available when it is in stock.

VARIETY LIST
